

I am an avid listener of Air 1 radio which is broadcast in my area over an FM translator (FM 88.7 in my area). Air 1 is the ONLY radio station in my area that broadcasts the type of music that I enjoy with the content that I enjoy. Losing Air 1 in my community would leave me with no Station to listen to that contained the positive influence with the style of music that I enjoy. I believe that Air 1 is an important service for my community because it brings an alternative to everyone but especially teenagers and young adults who do not want to be bombarded with the negative songs and less than couth DJs that are on mainstream radio these days. Please DO NOT allow LPFM stations to take priority over Air 1. Thank you.
